

Job Description: Registered Dental Hygienist

Be a smile hero! Dedicated dental hygienist wanted!

Come work for Lavender Dental - Dutton near Grand Rapids, Michigan and be a part of a growing dental practice group where you can help make a difference.

We are a well-established office that is continuing to grow and need a full-time licensed registered dental hygienist to join our team.

Lavender Dental Group is a family of dental practices as part of Equishared, an affiliation of dentists utilizing a common platform of services, processes, and systems to allow dental practitioners do what they do best- better serve their patients and help build healthier communities. We maintain the local dentist office feel while providing the best advanced care techniques and technology of larger dental practices. Lavender Dental Group offers comfort and convenience! Our practices provide every patient thoughtful, personal attention. No hype, no pressure – just a sincere approach to our patients' dental needs.

What you will contribute to our practice:

As a hygienist for our practice, you will play a critical role in providing relevant, meaningful, engaging, and positive experiences with our brand – from the moment a patient sits in your chair.

The right team member will be enthusiastic in educating patients on good oral hygiene. The hygienist will perform routine duties of patient screenings, cleanings, and assisting the dentists with treatment planning for teeth and gums on patients of all ages. This team member will be an excellent

communicator and able to create a calm, friendly, and comforting experience for the patient which ultimately will build trust.

What we will offer:

- Competitive wages
- Medical/dental/vision benefits
- 401K
- PTO
- CE reimbursement
- Scrub allowance
- Loupe Program

Responsibilities/Skills Required:

- Adherence to proper maintenance schedules for all relevant dental equipment
- Adheres to OSHA regulations and company safety requirements, including compliance with HIPPA requirements, CPR, X-rays, and other required certifications and registrations
- Assist dentists with selecting appropriate treatments for various diseases (including oral cancer)
- Breakdown and setup of operatory rooms
- Clean and help protect patients' teeth (e.g., remove plaque or apply fluoride)
- Conduct initial mouth screenings and check oral health history

- Educate patients of all ages on proper teeth care (by demonstrating, for example, good brushing techniques)
- Ensure patients feel as comfortable as possible before their examination
- Give instructions to patients after operations or other dental procedures
- Identify conditions like gingivitis, caries, or periodontitis
- Maintain documentation and charts on each patient
- Maintains and updates annual CE requirements as specified by the state
- Maintains certification requirements for X-Ray usage
- Monitoring cleanliness of the clinical areas
- Sterilize dental instruments properly
- Take X-rays or dental impressions
- Uphold the highest standards of behavior adherent to the company values

Job Type: Part-time, Permanent
